

Why Can't We All Just Get Along?

Nature is neither kind nor cruel. Living things are locked in life or death battles for resources and survival. Sometimes different species play nice to achieve a common goal and other times it's eat or be eaten. Determine which of the four relationships each example represents and dig a little deeper to find and record the details. Finish each box by finding a terrestrial (land) example of each type of relationship.

<p>Relationship:</p> <p>Ex. Cleaner Wrasse and Whitetip Reef Sharks</p> <p>Digging Deeper:</p> <p>A Terrestrial Example:</p>	<p>Relationship:</p> <p>Ex. Sand Tiger Sharks and Intrauterine Cannibalism</p> <p>Digging Deeper:</p> <p>A Terrestrial Example:</p>
<p>Relationship:</p> <p>Ex. Oceanic Whitetip Sharks and Remora</p> <p>Digging Deeper:</p> <p>A Terrestrial Example:</p>	<p>Relationship:</p> <p>Ex. Copepods and Great White Sharks</p> <p>Digging Deeper:</p> <p>A Terrestrial Example:</p>
